

THIN TIP THERMOMETER

The CDN Thin Tip Thermometer (DTQ450X) features BioCote[®] antimicrobial protection and a thin 1.5 mm tip. One of CDN's most used thermometers in the kitchen, this NSF[®] Certified model is designed for monitoring internal temperatures of the thinnest foods including grilled burgers, baked fish or flatiron steak.

The Thin Tip Thermometer stands out for easy one-button field recalibration and rapid response time in just 6 seconds.

BioCote[®] antimicrobial coating on the DTQ450X helps protect against bacterial cross contamination. Silver-based BioCote[®] inhibits harmful food-borne microbe growth.

The DTQ450X features separate button control for each of its main functions including hold, maximum temperature and a large LCD display.

FEATURES

- NSF[®] Certified
- 6-second response
- One-button field calibration
- 1.5 mm thin tip
- Hold & max
- BioCote[®] antimicrobial
- Stainless steel housing

SPECIFICATIONS

Measurement Range:	-40 to +450°F/-40 to +230°C
Accuracy:	±2°F (1°C)
Display Size:	0.875 W x 0.5 H (in)/ 2.2 W x 1.3 H (cm)
Sensor Length:	4.75" (12.1 cm) stem
Power:	One LR44 alkaline button battery included
Weight:	1.2 oz / 34.0 g
UPC:	0 18436 00458 5
Other:	• Waterproof (IPX6) • Shatterproof • Big digit • On/off button • Auto-off • Selectable units • Temperature guide • Mounting: pocket clip • Battery & instructions included
