

DISHWASHER THIN TIP THERMOMETER

The CDN Dishwasher Thin Tip Thermometer (DTW450) provides accurate temperature readings with a fast 6-second response. This workhorse joins CDN's digital pocket thermometer collection that has become the industry's standard for its accuracy, rapid response and easy one-button field calibration.

This sturdy thermometer can withstand water immersion. The Dishwasher Thin Tip Thermometer is rated at IPX7, which means it is protected against water immersion for 30 minutes at one meter. This is more than enough protection against dropping the thermometer into a full sink or even a pot of soup.

With the max/min feature, the Dishwasher Thin Tip Thermometer has become a favorite for measuring water temperatures of during commercial dishwasher cycles.

The DTW450 is NSF[®] Certified, with a 4.5-inch 304 stainless-steel stem that is convenient to carry around. The 1.5 mm thin tip allows for easy insertion into thin cuts of delicate fish or meats as well as general purpose cooking.
